

SUN BEAMS

By WALTER M. BARRETT

Word from Dan Smith, southern California representative for the Truckee Motion Picture association, finds the new "scout" doing "his stuff" with the big directors and the leading location men of Hollywood. Dan writes that he has been given a warm reception in the southland and has made some very valuable contacts. Naturally we do not anticipate Dan will return with a score of the major companies in his wake, but we do believe that he is building up a contact which will prove valuable in this community. And with the product he has to sell, his job shouldn't prove too difficult.

Well, folks, it won't be long now. In an other week it will all be over and we can start leading normal lives again and settle back and talk something besides elections and candidates. Radios, we sincerely hope, will again provide a semblance of entertainment as they were wont to do in the past and newspapers or periodicals will, or may, again have something aside from column after column of publicity for this or that issue or candidate. Reams of poorly written, non-edited slanderous propaganda which has been flooding the mails in futile efforts to get this or that into print free, will turn yellow and the authors will again return to the relief agencies or back to the family hearth for sustenance. The election has developed seeds of comment, caused hard feelings and even resulted in close friendships being severed. And yet, it is a very serious thing and everyone should vote regardless of their policies or politics. And may the best man win.

Speaking of hard times, we have been informed that up until a day or two ago it was impossible to get men to work on preparing Truckee's winter sports grounds. It hasn't been many months back, if you remember, when nearly anyone of us would have been tickled to have been given an offer to earn a few dimes. The spell has been broken, however, and work is started, assuring a good spot for the west's best snow sport activities.

The boys at the Meadow Lake Union are busy these days getting a field into shape for the 1937 football and baseball season. The youngsters spend nearly each afternoon following school developing the field and we hope that their efforts are being appreciated. It surely calls attention to the desire of the boys to have clean outdoor recreation and we are one hundred per cent behind them.

What has happened to the crowds that used to flock to the depot every time the streamlined train went through? It was the same crowd which used to strain their necks watching the flight of the airmail. Just another proof that we soon accept achievements as common place and await a new marvel. In Truckee the streamline is just another train and no one ever looks at an airplane any more unless it is falling.

WINTER SPORTS PROGRAM MAPPED AT STATE MEET

Championship Events to go To Auburn Ski Club Yosemite

TRUCKEE REPRESENTED Sponsoring of Activities for Schools is Sanctioned By Board

That winter sports are destined to become one of the state's foremost recreational programs was assured when 20 directors of the California State Ski association met in Sacramento Saturday to sanction the dates for events, award bids for the championship meets and discuss a future filled with scheduled activities. While the Truckee club did not place a bid for any particular date, Director C. Edmunds, secretary of the state-wide organization and the manager of the Truckee Winter Sports announced that dates for local meets would be announced later.

The application of the Sierra club, an organization embracing 2240 members from all parts of the state, was accepted, making the 15th club to be taken into the group.

The directors, among other topics of business, agreed to sponsor as far as possible, events for high schools and colleges to develop future champions and at the same time provide healthful recreation for the youths of the state. Individual clubs voiced favorable opinions relative to this phase of the program.

It was voted to ask the state highway department to open new areas for ski fields, providing the gas tax derived from such a road proved to be sufficient to pay the costs.

Resolutions asking that ski trails be marked and rest huts built were also unanimously passed.

A new veteran class for skiers was established for competitive events. All skiers over 32 years of age who have competed in either the A or B class events may become veterans if they so desire, but once entered as a veteran they cannot again become A or B class contenders.

The Auburn Ski Club was again awarded the bid for holding the state championship cross country and ski jumping contests on February 20, 21 and 22. The down hill and slalom events had previously gone to the Yosemite club for March 13 and 14.

Tentative dates for the principal winter events for the year were set as follows:

January 16 and 17—Mt. Lassen club meet.

January 23 and 24—11th annual Big Pine carnival.

January 30 and 31—Mt. Shasta club tournament.

February 6 and 7—Big Pine or Arrowhead and Yosemite meets.

February 13 and 14—Lake Tahoe and Placerville.

February 20, 21 and 22—Auburn championship meet.

February 27 and 28—Yosemite Intercollegiate meet.

March 13 and 14—Yosemite championship event.

April 4 and July 4—Mt. Lassen.

NEW GRAMMAR SCHOOL TO OPEN HERE ON MONDAY

Modern Structure Will be Dedicated Soon as Project Over

COST NEARLY \$36,000

Provides Truckee With Late Type Structure For School

"Blue Monday" will not be evident to the Truckee grammar school children who will attend in the new edifice on the site of the old building facing Church street for the first time on next Monday, according to present plans.

The building which was greatly needed is a distinct asset to the community and was made possible by a bond issue and government grant. It was estimated that the cost will be approximately \$36,000.

Fire risk has been diminished to the vanishing point by the one-story structure itself and all precautions have been taken to avoid any dangers from a conflagration. Fire drill will be a part of the routine.

The exterior of the building shows the Spanish influence although the roof has been pitched to withstand the snow fall. The green roof and light color used on the sides of the stuccoed frame building, which has steel sashes, makes it blend with the surrounding scenery. The interior has entrances on the east, west and south and has a wide corridor in which there is a fountain, adds to the appearance.

There are three large classrooms, each provided with separate locker rooms for the children and teachers, a large alcove work room, a room for the janitor supplies and an office for the principal, R. P. Nelson, three large lavatories, an inclosed library and last but not least, an auditorium which will seat between 400 and 500 persons.

The lighting system is modern and conveniently arranged to save the eyesight of the pupils. Care has been exercised in the building materials, sanitary facilities, heating and ventilation.

A stage and dressing room as well as 500 metal chairs equip the auditorium. Virtually everything including a telephone has been installed to make the local school second to none in a community of this size.

Dedication ceremonies will take place in the near future to acquaint the public with its newest building.

Besides Mr. Nelson, Miss Charlotte Pfeuffer and Miss Norma Reichelt will be instructors. The board of trustees includes Tim O'Hanrahan, president, Mrs. Dan Smith, clerk and Robert A. Tonini.

ELLIOTT PURCHASES PARTNER'S SHARE IN C. & E. CONCERN

Chester Elliott announced this week that he has purchased from his former partner, Ralph Cardinal, the latter's share in the C. & E. Electrical Service at Hobart Mills. Cardinal has become associated with the Shell Company at Reno. Elliott announced that he will continue to serve the people of this district in their electrical requirements.

NEW DODGE ARRIVES AT TRUCKEE AAA GARAGE IN PREVIEW

The new Dodge for 1937, in appearance more beautiful and in mechanical detail more perfect, arrived in Truckee this week and is on display at the Truckee AAA garage. Antone Ghirard, local dealer, invites all to drop in and see the new car and ask for a demonstration.

YOUTH IN SNOW SPORTS

We had the pleasure Saturday of attending a meeting of the directors of the California State Ski association, a group representing winter sports from all parts of California. From every indication, winter sports, which in this state, at least, have never been accorded the high rank which the deserved, are coming into their own.

The association, working in harmony for the general advancement of the outdoor recreation, decided to foster as much as possible, events for college and high school students so that the youth of the state may learn to enjoy the healthful winter sports and at some time be a possible contender in national and international championship tournaments.

This latter plan of sponsorship in itself is a clause well worthy of any organization or group. The development of a recreational field for the younger people has been somewhat lacking in many localities and while the association can do but little other than sanction dates for events, the individual clubs, including the Truckee Outing Club, has a task outlined which should prove enjoyable as well as greatly beneficial for the boys and girls of the communities.

While the directors spent only a few minutes in discussing the youth angle, that brief portion of the meeting seemed to create a greater impression and meet with more wholehearted approval than any of the many other topics under discussion.

Other clubs are getting behind the program. The Yosemite club this year will hold its second annual intercollegiate tournament. Other representatives said their clubs in every section of the state were assisting high school students in the programs and the majority expressed the opinion that those clubs not now engaged in the work should follow the example not only for the betterment of winter sports in the future, but for the building up of a healthful recreational program for the youths.

NEWSPAPER READERS BUY

This could be construed as shop talk, but the fact that newspaper readers buy 14 to 22 per cent more merchandise than non-readers does have social and economical implications, and therefore qualifies as a fit subject matter for editorial comment.

The figures were reported at the University of Southern last week after a survey based on the study of newspaper subscribers and non-subscriber lists.

As for the economic significance, the man who first said that it pays to advertise ought to have added that it pays not only the advertiser, but the whole of society as well.

America's relatively high standard of living owes much to advertising. It stimulates desire for more and more better things, and that means ever greater markets for ever increasing farm and factory production.

Incidentally, the survey disclosed another fact that may have much to do with California's leading place in the nation's recovery. Californians read more papers per capita than people of any other state, numbering 390 per 1000 population as compared with the national average of 290 to 1000.

"THE PUBLIC BE HANGED"

Less than a fortnight ago, a whole city, aroused almost to a man, figuratively stood up and shouted "NO, we do not want unsightly billboards lining our approach to the world's greatest bridge."

Its elected supervisors, a mere handful of willful men, said "YES, you'll take them and like them."

And so last week San Francisco watched helplessly while permits were issued for the world's biggest signboards along the western approach to the world's largest bridge that spans the bay. One sign is to be seven stories high, and at least one is to be half a block long.

Who would have thought it possible in modern America for an elected group to so defy the virtually unanimous will of its people, to say, in effect, "The public be hanged!" But it happened in San Francisco. And therein lies a timely lesson for the whole of California.

It will be a happy day when small pressure groups with much to gain can no longer influence a people's representatives to act against public will. But apparently that day has not yet arrived.

HOST TO THE TRAILERS

California - host to the world, host to the nation; and now, host to the nation on wheels, the trailer brigade!

The mushroom growth of these mobile homes fostering nomadic living on an unprecedented scale is no less than astonishing. Already there are more than 300,000, and by next year it is estimated that there will be half a million. And a dozen years hence, say some sociologists, a quarter of the population will be free wheeling it hither and yon in trailer homes.

NEPTUNE'S GIFT TO YOU

Neptune has a treasure chest for California to which the voters of the state have the key. It is a "Yes" vote for Proposition Number 4. The treasure, in the form of oil pools underlying state-owned tidelands, is being depleted by wells which, in some cases, pay nothing to the state, and in other cases pay very little.

The state should have power to correct this wastage of public resources. By voting "Yes" for Proposition 4, the state will be able to tap this treasure of Neptune. Proposition Number 4 enables the state to collect a fixed royalty of 14 2-7 per cent from these oil resources by slant-drilling, and to provide for their orderly development.

Minimum estimates place the revenue from this source at \$2,000,000 a year to the state for 25 years. One-half would go into the general fund for tax reduction and the other half for acquiring and maintaining public parks and beaches.

The measure prohibits tideland drilling forever and provides rigid protection of the beaches from pollution and interference with bathing, fishing and navigation.

Politically Speaking

By GEORGE E. HELMER
(United Press Staff Correspondent)

SACRAMENTO, Cal., Oct. 29.—(UP)—Contractors and others who called upon Gov. Frank F. Merriam in the hope of persuading him to change his attitude concerning Proposition No. 10, the motor vehicle license fee and fuel tax allocation measure on the November 3 ballot, went away disappointed and without having any doubt that the governor could be emphatic and very stubborn when he chose.

Merriam, to use an expression impartial observers who sat in on the conference, "told 'em plenty."

Afterward, a reporter remarked to the governor:

"You certainly trimmed their ears down that time."

"Well," Merriam chuckled, "there's no need of mincing words at a time like this."

The governor told No. 10 proponents—the council chamber was pretty well filled with contractors, representatives of the California highway council and the Automobile Club of Southern California—that measure was "unfair, discriminatory, a protection for diesel motors, an attempt to grab money from the state general fund."

"If you had limited it to the protection of gas tax funds, to prevent their diversion to other purposes," he said, "I would be heartily in favor of it."

"Had you come here and obtained some help in drawing the act, you might have a better instrument. But it is so loosely drawn that it might reach into the general fund for millions, endanger protection to school funds and necessitate the levying of new taxes."

"I can see no excuse for the clause which protects diesel motors by prohibiting a higher tax on diesel oil than is charged on gasoline. That is discrimination of the rankiest kind."

Ivan Kelso, general counsel for the auto club, admitted that inclusion of the diesel-protecting clause was "unfortunate."

Merriam had a ready answer for all arguments, and did not back down an inch from his original

Also Candidate

statements attacking the measure as "one of the worst anyone ever attempted to foist onto the public in California."

The state's two big automobile associations, incidentally, failed to see alike on No. 10. The California State Automobile association went on record as opposed to the initiative.

Contractors are interested—vitality—because passage of the measure would mean more funds for highway work for them. Oil companies also are not particularly opposed to the selling of more oil and by-products used in construction and maintenance of highways.

The other outstanding topic of conversation in the capitol during the week was the controversy over a toll charge for automobiles on the San Francisco-Oakland Bay bridge, which is to be opened November 12.

Some weeks ago, division of highways engineers and Earl Lee Kelly, director of public works, were pretty happy because they figured the Toll Bridge Authority could establish a fare at least 15 cents lower than the average now paid on ferries. The toll, Kelly, believed, could be

pulation will be free wheeling it hither and yon in trailer homes.

Imagine what this can mean for California's \$200,000,000 tourist crop! It will certainly grow. It might even double in a decade.

A little foresight at this early stage of the trailer movement will pay big dividends. Truckee can prepare now to be a good host to the trailers by providing more auto camp and park facilities, and thus get the jump on other communities which are competing for this business.

65 cents flat, including passengers. Ferries charge 65 cents plus five cents for passengers. The Carquinez bridge rate is 70 cents for car and driver, and 10 cents per passenger, a car with four people in it costing \$1.

Then Lt. Gov. George J. Hatfield, a member of the authority, disrupted highway division peace by advocating a 50-cent flat toll and refusing to change his demands despite the argument of engineers and other experts that 65 cents would be the minimum requirement if bridge bonds were to be financed. Administration people sorrowfully admitted that Hatfield's drive was splendid for campaign purposes.

Gov. Frank F. Merriam, hoping to obtain the unanimous approval of authority members on whatever toll schedule was adopted, was opposed to being "rushed off his feet" before he could make up his mind. As a result, the authority stalled along, arguing but taking no action.

It appeared certain that a temporary toll would be established while further surveys were made.

Some administration sources predicted the temporary toll would be 35 cents. Hatfield supporters forecast a 50-cent toll. It will depend almost entirely on what the governor proposes, because he controls the authority.

TAHOE BOYS WIN IN TRUCKEE GRID GAME BY 27 TO 6 SCORE

A wildly cheering crowd, estimated at several hundred persons, witnessed the thrilling football match on Sunday between Truckee and Tahoe high school boys on the greens of the Tavern golf course at Tahoe City, the weather being perfect.

At promptly 1:15 the Tahoeites kicked off and from start to finish the game proved a thrilling tussle, with plenty of good sportsmanship displayed by both sides as the crowd yelled itself hoarse. The Tahoe rooting section, wearing the official Tahoe colors, green and orange, lent wholehearted moral support, some of the noisiest rooters boasting only six years.

The Tahoe group appeared to have the best of it right from the start, the final score being 27 to 6 in favor of the lakesters. Carl Bechdolt Jr., home from St. Mary's college for the week-end, was acting captain for the day of the Tahoe squad which ordinarily toes the mark under the directions of Walter Mandeville. Other members of the team included James Worden, Joe Pomin, Douglas Smith, home for the week-end from Sacramento junior college; Bill Lincoln, Jack Wolf, Junior Henry, Charles Peterson, Frank Hale (grammar school boy), Lyle Lewis, David Renner, Arman Swenson and two substitutes, Jim Easton and Oliver Henrikson.

Dr. C. B. Pedersen was present on the sidelines ready to serve in any emergency, but none arose. Jimmy Lydon painted all the "down" signs for the boys. Howard Lindbergh and Jay Dodson of Tall Pines acted as linesmen, Joe Henry was official timekeeper and Bart Pierson of Tahoe Inn was coach and referee.

Austin Studios of the Arcade building in Reno were on hand to take movies of the first two touchdowns.

Mr. and Mrs. Carl Bechdolt of Tahoe Inn were hosts on Sunday night to members of the Tahoe squad at a turkey dinner, honoring the winning team.

Another return engagement is scheduled to be played on either November 7 or 8, weather permitting.

Tahoe Ramblings

(By SWANEE)

The thermometer dropped as low as 18 along the Truckee river last week as beautiful sunny weather continues in the Tahoe region where willows, believing spring has returned, are putting forth new buds and buttercups and Indian paintbrush can still be found blooming in the meadows.

Professor and Mrs. Charles Plein of Stanford who have a summer home on the Truckee river, enjoyed the week end at Tahoe Inn.

Mr. and Mrs. M. J. Cagney of Burlingame were houseguests of Mrs. Gerda Kvistberg of Tahoe Park for a few days last week. Mr. Cagney is an uncle of James Cagney, the famous actor of Hollywood.

Mrs. Hulda Nielsen has returned to live at her home in Tahoe Park.

Gilson V. Willets, noted San Francisco author, accompanied by his charming wife, has been enjoying a late vacation in the Tahoe region.

The couple, recently married in the bay city, chose Tahoe for part of the honeymoon. They were more than agreeably surprised at finding such mild beautiful fall weather as they had been informed below that Tahoe was covered with snow and they would find no accommodations whatever. They plan to return for some winter sports later.

Weller Atherton is spending a week or more in the Klamath river country fishing.

Mrs. Annie Soll and daughter, Agnes, enjoyed a motor trip Monday around the lake and over the mountain to Carson, thence to Reno.

Mr. and Mrs. Sam Goss and family were visitors in Tahoe recently.

Mrs. Gertrude Broach attended the funeral of Mrs. Jack Kirkley which was held in Reno Monday.

Judge George Bliss of Tahoe City last week was reappointed deputy coroner of Placer county.

Mr. and Mrs. Otto Darlin and son Larry left Tahoe Sunday for Berkeley where they will visit relatives en route to Arizona Hot Springs where they will remain for the month of November and possibly longer.

PUPILS RETURN TO CLASSES; NEWS OF TAHOE'S SCHOOLS

TAHOE CITY, Oct. 29.—Five pupils, Betty Renner, Tom and Robert Adams, Ernest McCuen and Jimmie Swanson, returned to school Monday following mild attacks of chickenpox. Larry Darlin, also a victim, has recovered and accompanied his parent to Berkeley.

Two new pupils were added to the attendance list Monday.

The elementary grades held their regular club meeting Monday and purchased a new football for the up and coming junior team.

The girls of the classes are engaged in embroidering a quilt to be used on the school cots for the malnourished pupils who must rest periodically.

A new rug is being woven by the youngsters who are learning the art of weaving.

Miss Margaret Pomin of Tahoe City has been on the sick list this week and is under the care of a physician.

THE NEW DODGE FOR 1937 ARRIVES IN TRUCKEE

BIGGER...ROOMIER...RICH WITH NEW EXTRA-VALUE FEATURES ...IS GREATEST MONEY-SAVING DODGE OF THEM ALL!

AGAIN capturing the spotlight of America's interest in new motor cars, Dodge scores another "smash hit" with the greatest extra-value, money-saving Dodge of them all—the sensational new Dodge for 1937!

From its striking new radiator grille right back to the last graceful curve of its body, this new Dodge is a complete unit of advanced "Wind-Stream" styling. It is easily the most beautiful "age ever built!" Interiors are roomier and roomier than ever before...new "high-safety" instrument panel...new all-weather body ventilation...these and many other refinements add to your comfort and convenience!

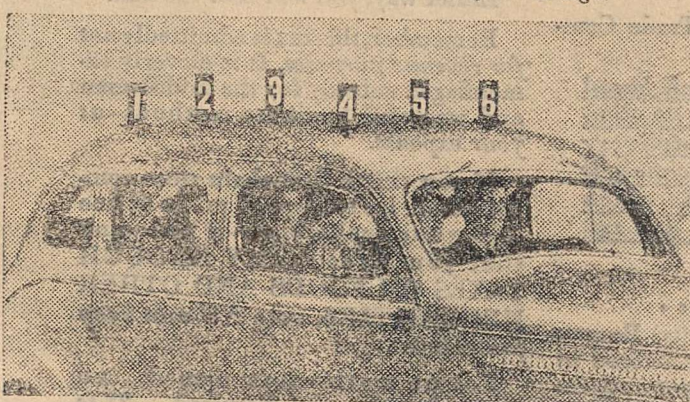

Famous Dodge "Chair-Height" seats...new improved weight distribution...new airplane-type hydraulic shock absorbers...and

to top all these, the Dodge safety all-steel body is now securely mounted on cushions of rubber to banish all road noise—giving a quiet ride!

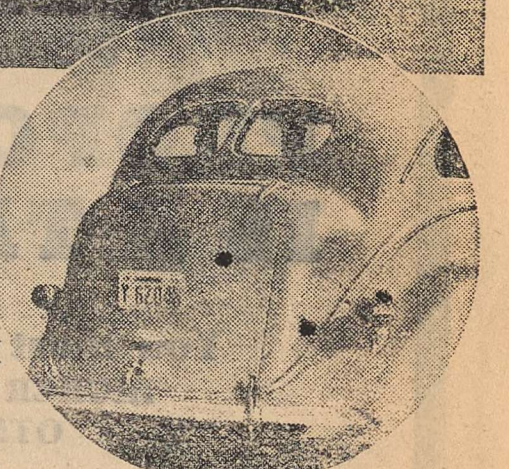

And for even greater safety the new Dodge safety all-steel body with all-steel top, forms an impregnable fortress of steel...steel guards you above and below and on all sides!

Powered by the famous Dodge engine which owners report gives them from 18 to 24 miles per gallon, the new Dodge gives still more in all-around economy...with improved features to save oil, lengthen life and cut upkeep costs!

See this new Dodge at our special preview showing tomorrow! Then you'll understand why "millions will want to switch to this amazing new Dodge!"

SIX PERSONS CAN NOW ride comfortably in all Dodge sedans. Seats are now wider than ever before (47 inches in front—48½ inches in rear) and Dodge "Chair-Height" seats give you plenty of leg and foot-room, with the comfort of your own easy chair! And now Dodge gives you a quieter ride than ever! The new Dodge safety all-steel body is now mounted on cushions of rubber to completely banish road noises!

WINDSTREAMED FOR BEAUTY...
windstreamed for utility...this new Dodge is easily the most handsome car Dodge ever built. Trucks on new Dodge touring sedans blend gracefully into the body lines and are more spacious than ever! License plate is now mounted in center and individually lighted.

GENUINE, EQUAL-PRESSURE
hydraulic brakes give you safe, smooth, even stops. Dodge adopted hydraulic brakes 8 years ago—and every Dodge built since that time has had hydraulic brakes. Dodge genuine hydraulic brakes have been tried and proved in the toughest test of all—time!

FOR LIQUOR LAW ENFORCEMENT

Removes liquor control entirely from State Board of Equalization. Sets up non-political Alcoholic Beverage Commission. Provides adequate local enforcement. Provides mandatory public hearings on demand of local authorities and authorizes commission to deny or revoke licenses if character of applicant or place of business unsatisfactory. Authorizes commission to limit number of licenses in any community.

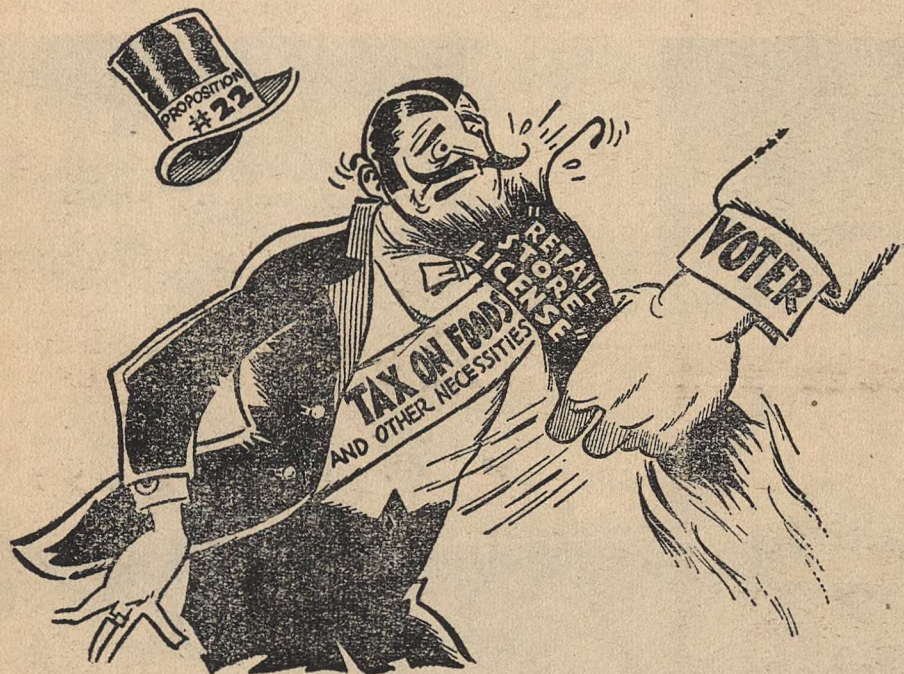

Prevent Return of Prohibition!

VOTE NO ON 9
TO PREVENT RETURN OF PROHIBITION

Means Prohibition. Under misleading title of Local Option, Proposition 9 gives City Councils and Boards of Supervisors power to bring back bone dry prohibition overnight WITHOUT A VOTE OF THE PEOPLE. Would inject wet and dry issue into every local election. Would bring back bootleggers, speakeasies and hotel bedroom drinking. Would cause widespread unemployment and irreparable loss to our \$400,000,000 wine and grape industries and \$250,000,000 tourist trade.

Stripped of its "WHISKERS"

PROPOSITION #22 IS A TAX ON YOU!

You must defeat it or pay it—in
HIGHER PRICES ON FOOD AND
OTHER NECESSITIES

There is a "joker" in Proposition 22 on your November ballot!

Called a "Retail Store License," it looks innocent enough. But stripped of its disguise, it is a Tax that will have to be passed on to you in higher prices.

It provides that chain stores selling food and other necessities will be taxed \$500.00 a year for each store over nine. Individual stores will pay only \$1.00 a year—or one five-hundredth as much.

BUT...

...says the U.S. Federal Trade Commission:

"If the ability to undersell, based on greater efficiency or on elimination of credit and delivery cost, is destroyed by taxation, it is the consuming public which will really pay the tax and not the chain."

BECAUSE...

...as the Harvard (University) Bureau of Business Research discovered in studying 32,998 chain stores...chain stores operate on a small profit. They eliminate middleman's profits and unnecessary in-between expenses. The savings they make by operating efficiently are passed on to you in prices 10% below the average.

Four out of five chain stores do not make enough profit to cover the tax. Thus some of them will be forced out of business—allowing their competitors to raise prices.

Surviving chains will be forced to raise their prices to pay the tax.

Remember, this tax is admittedly not for revenue purposes. It is cleverly camouflaged subsidy for the middleman and wasteful business methods—at your expense.

If you think that chain store competition helps to keep all prices in line with your pocketbook—if you think that you already PAY ENOUGH TAXES ON FOODS AND OTHER NECESSITIES, vote NO and keep prices low.

For no matter how named...no matter how heavily disguised...22 is a tax on you...VOTE NO!

22 IS A TAX ON YOU—VOTE NO!

RETAIL STORE LICENSE Referendum against act of Legislature (Chapter 840, Statutes 1935) requiring every person or organization owning, operating or controlling one or more stores, wherein merchandise is sold at retail, obtain annual State license; prescribing fifty cents application fee for each store and one dollar license fee for one store, increasing license fee progressively for second and additional stores to five hundred dollars for each store over nine; excepting filling stations, ice distributing establishments, restaurant facilities of common carriers, newspaper offices, stores wherein sales are incidental to rendering personal service, theatres and motion picture houses.

Assistant Supervisor B. C. Goldsmith of the Tahoe Forest with logging engineer W. S. Price and John Berry of the regional forest service office at San Francisco are going over the area destroyed in the recent Forest Hill fire to begin immediate rehabilitation, according to the report by Supervisor DeWitt Nelson.

It was estimated that \$250,000 damage was done to the timber aside from the McKinzie sawmill and other property.

Planting expert C. W. Corson of the Susanville nursery will make plans to seed certain parts and plant young trees in others where this would be more practical.

An additional warning is being sent out by supervisor Nelson to prevent further destruction of the trees when it was learned that unauthorized burning of rubbish was going on.

The recent rains have not been sufficient to prevent fires and men at lookout points will remain at the stations until there is no longer any danger.

**126 AGED NEEDY IN THIS
COUNTY ARE GIVEN AID**

Allowances made by the state and counties to California's needy aged under the liberalized old-age security act, continues to increase, according to Florence L. Turner, director of the department of social welfare.

In Nevada county last month a total of 126 persons was receiving an average of \$31.07 per case, the department reported.

From the standpoint of the state as a whole, the department reported that 52,142 aged persons during the month of September received a total of \$1,642,497, or an average of \$31.50 per case.

State records show this to be a slight increase over the average of \$31.46 paid to aged persons during August.

This gain in the case average represents a continuance of the increase started after the legislature voted to liberalize the old age security act by reducing the minimum age limit from 70 to 65 years, and providing a minimum gross allowance of \$35 a month, other sources of income to be deducted.

**INCREASE OVER ESTIMATE
IN INCOME FROM PERSONAL
PROPERTY TAX RECORDED**

SACRAMENTO, Oct. 29.—(UP)—An increase in 50 per cent over original estimates of the income from California's personal income tax was anticipated here by state officials.

Actual collections up to September 30 amounted to \$9,402,148 with the third and last installment not due until December 15.

On this basis it was estimated the tax would net the state at least \$12,000,000 for the year, as against an original estimate of \$16,000,000 for the biennial period.

**COUNTY IS GIVEN SHARE
FROM STATE GAS FUND**

SACRAMENTO, Oct. 29.—(UP)—Apportionment of \$17,109.15 as Nevada county's share of gasoline tax collections for the quarter ending on September 30, was announced today by State Controller Ray L. Riley.

Total collections for the period amounted to \$11,305,934, a gain of \$954,210 or 9.2 per cent over the \$10,351,723 of the same quarter a year ago, the announcement said.

The report pointed out that of the

total collections, the counties will receive one third of the amount apportioned, or \$3,768,644. The balance will be deposited in the state highway fund, a sum amounting to \$7,537,289.

...Turn on Winter Sunshine

EVERY home has its arctic zones these cold mornings and evenings. So often in the bathroom, breakfast nook or corner bedroom there are chilly spots that would even make a polar bear thermometer-minded. These cold spots vanish when you plug in the efficient, portable electric heater.

"Turning on winter sunshine" is what more than 100,000 California families call these handy electric heaters. With electric heat you can dress in comfort, warm your body and your clothes in the mornings. You can thaw out the bathroom while you bathe and shave. Your home should have one or two of these quick-acting electric heaters.
